INDEX OF AUTHORS

AOI, H. 21
ATHANASOU, N. A. 383

BADLEY, R. A. 1
BORISY, G. G. 265
BOYCOTT, B. B. 95

CHAMBERS, T. J. 383
COWIN, P. 119

DEARDEN, L. 1
DENTLER, W. L. 167
DICKINSON, H. G. 241, 255
DURSTON, A. J. 195

ENGSTRÖM, W. 155

FULLER, K. 383
FUKUMOTO, M. 175

GABBIANI, F. 39
GABBIANI, G. 39
GARROD, D. 119, 133
GAVIN, R. H. 147
GOHARI, K. 411
GORDON, S. 189
GRASSER, W. A. 353
GRINNELL, F. 51

HARROD, G. 241, 255
HEIMARK, R. L. 39
HOPKINS, J. M. 95
HUME, D. A. 189
HYLDAHL, L. 343

ISHIDA, M. 367
ISHIMARU, Y. 367

KARATZA, C. 401
KERYER, G. 265
KOWALCZYŃSKA, H. M. 321
KURANO, S. 367
KURIYAMA, R. 265, 277
KUROIWA, T. 21

LAMKE, C. R. 51
LANFRANCHI, G. 309
LINDER, S. 309
LOUTIT, J. F. 189

MAEDA, Y. 297
MATTEY, D. 119
McDONALD, S. A. 195
MILLIKIN, B. E. 223
MIYAKAWA, I. 21
MORGAN, J. 133
MURPHY, D. B. 353

NOWAK, M. 321

OCKLEFORD, C. D. 1

PEARSON, J. D. 81
PRIMAVERA, M. V. 335

REVELL, P. A. 383
RINGERTZ, N. R. 309
ROBERTS, I. N. 241, 255

SANDO, N. 21
SEPÚLVEDA, F. W. 81
SCHWARTZ, S. M. 39
SHALL, S. 401
SHAW, S. R. 65
SUNDQVIST, K. G. 155

TETI, A. 335
THOROGOOD, P. 205

WANGER, L. 155
WEISS, R. L. 223
WHITE, F. H. 411
WOOD, A. 205

ZAMBONIN ZALLONE, A. 335

INDEX OF SUBJECTS

Acetolysis
in distribution study of sporopollenin in *Dictyostelium* fruiting bodies: MAEDA 297
Actin polymerization
in early cell movement during endothelial regeneration: GABBIANI, GABBIANI, HEIMARK & SCHWARTZ 39
Adhesive molecules
in aggregation of rat ascites hepatoma cells: KURANO, ISHIDA & ISHIMARU 367
Atheromatosis
organization of actin cytoskeleton: GABBIANI, GABBIANI, HEIMARK & SCHWARTZ 39

Basal body components
reassembly in *Tetrahymena*: GAVIN 147
Bone cell cultures
fusion in cells with monocytes: ZAMBONIN, ZALLONE, TETI & PRIMAVERA 335
Bone resorption
by isolated rabbit osteoclasts: CHAMBERS, REVELL, FULLER & ATHANASOU 383
Brassica oleracea
pollen–stigma interactions: ROBERTS, HARROD & DICKINSON I, II 241, 255

Calmodulin
in study of role of calcium in cancer cell aggregation: KURANO, ISHIDA & ISHIMARU 367
Cancer cell adhesion
role of calcium in aggregation: KURANO, ISHIDA & ISHIMARU 367
Capping structures
in *Tetrahymena* cilia: DENTLER 167
Cell adhesion
distribution of desmosomal components in vertebrate tissues: COWIN, MATTEY & GARROD 119
in HeLa cells, not fibronectin-dependent: MORGAN & GARROD 133
of L1210 cells to collagen and glass: KOWALCZYŃSKA & NOWAK 321
Cell–cell communication
in two established cell lines (LLC-PK_1 and DDCK): SEPÚLVEDA & PEARSON 81
Cell–cell recognition
among axons of *Lucilia cuprina*: SHAW 65
Cell cycle
and sorting behaviour in *Dictyostelium*: MCDONALD & DURSTON 195
Cell fusion
globin synthesis in heterokaryons: LANFRANCHI, LINDER & RINGERTZ 309
Cell migration
in vivo during teliost fin morphogenesis: WOOD & THOROGOOD 205
Cell movement
study of pattern after experimental wounding: GABBIANI, GABBIANI, HEIMARK & SCHWARTZ 39
Cell sorting
in *Dictyostelium*: MCDONALD & DURSTON 195
Cellular recognition
in pollen–stigma interactions in *Brassica oleracea*: ROBERTS, HARROD & DICKINSON I, II 241, 255
Cellulose
in stalk cell wall of slime mould fruiting bodies: MAEDA 297
Cell wall
carbohydrates, binding to lectins during mating of *Chlamydomonas*: MILLIKIN & WEISS 223
distribution of sporopollenin in fruiting bodies of slime mould: MAEDA 297
Centrosomes
in nucleation of microtubules in CHO cells *in vitro*: KURIYAMA 277
Chlamydomonas
distribution of ConA-binding carbohydrates during mating: MILLIKIN & WEISS 223
CHO cells
centrosomes in nucleation of microtubules: KURIYAMA 277
mitotic spindles isolated in taxol-containing medium: KURIYAMA, KERYER & BORISY 265
Choriocarcinoma
in culture, syncytioskeletons: OCKLEFORD, DEARDEN & BADLEY 1
Chromatophores
of fish, intermediate filaments in cytoskeletons: MURPHY & GRASSER 353
Cilia
of *Tetrahymena*, attachment of cap to central microtubules: DENTLER 167

Cilia (cont.)
primary (solitary), in mammalian retina, distribution and aging: BOYCOTT & HOPKINS 95
Collagen lattices
reorganization by human skin fibroblasts: GRINNELL & LAMKE 51
Concanavalin A
-binding carbohydrates, distribution during mating of *Chlamydomonas*: MILLIKIN & WEISS 223
Contact guidance
in cell migration during teliost fin morphogenesis: WOOD & THOROGOOD 205
Corneas
cultured human embryonic: HYLDAHL 343
Cytochalasin B
effect on DNA synthesis in ConA-treated lymphocytes: SUNDQVIST, WANGER & ENGSTRÖM 155
Cytoskeleton
in choriocarcinoma in culture: OCKLEFORD, DEARDEN & BADLEY 1

DAPI
in fluorescence microscopy of mitochondrial nucleoids of yeast: MIYAKAWA, AOI & KUROIWA 21
Desmosomes
in hamster cheek pouch epithelium: WHITE & GOHARI 411
Developmental asymmetry
among photoreceptor axons of insects: SHAW 65
Dictyostelium
distribution of sporopollenin in fruiting bodies: MAEDA 297
Differentiation
globin synthesis in: LANFRANCHI, LINDER & RINGERTZ 309
in *Dictyostelium* cell cycle: McDONALD & DURSTON 195
in hamster cheek pouch epithelium: WHITE & GOHARI 411
Desmosomes
distribution of components in vertebrate tissues: COWIN, MATTEY & GARROD 119
DNA synthesis
in ConA-treated lymphocytes, effect of cytochalasin B: SUNDQVIST, WANGER & ENGSTRÖM 155

Electrical coupling
among axons of *Lucilia cuprina*: SHAW 65

Epithelium
of hamster cheek pouch, differentiation: WHITE & GOHARI 411
vertebrate, desmosomal components: COWIN, MATTEY & GARROD 119

Fertilization
in *Perophora annectens*, apical structure of spermatozoa: FUKUMOTO 175
Fibroblasts
human skin, reorganization of hydrated collagen lattices: GRINNELL & LAMKE 51
normal mouse embryo, reproductive potential *in vitro*: KARATZA & SHALL 401
Fibronectin
-independent adhesion of CHO cells: MORGAN & GARROD 133
Fin development
in teleost *in vivo*, cell migration: WOOD & THOROGOOD 205
Focal contacts
in fibronectin-independent HeLa cell adhesion: MORGAN & GARROD 133

Gap junctions
asymmetric distribution in axons of *Lucilia cuprina*: SHAW 65
Globin
synthesis by heterokaryons: LANFRANCHI, LINDER & RINGERTZ 309
Glycoproteins
of stigma surface after pollination in *Brassica*: ROBERTS, HARROD & DICKINSON II 255

Heterokaryons
between chick erythroblasts and human or rat cells, globin synthesis: LANFRANCHI, LINDER & RINGERTZ 309

Immunochemistry
in definition of mononuclear phagocyte system of mouse: HUME, LOUTIT & GORDON 189
Immunofluorescence
in study of syncytioskeletons in culture: OCKLEFORD, DEARDEN & BADLEY 1
Interaction time
effect on cell adhesion to substrate: KOWALCZYŃSKA & NOWAK 321
Intermediate filaments
in cytoskeletons of fish chromatophores: MURPHY & GRASSER 353
Intracellular motility
in fish chromatophores: MURPHY & GRASSER 353

Lectins
binding to carbohydrates during mating in *Chlamydomonas*: MILLIKIN & WEISS 223
LLC-PK$_1$ cells
deficient in intercellular communication: SEPÚLVEDA & PEARSON 81
Lucilia cuprina
asymmetric distribution of gap junctions among axons: SHAW 65
Lymphocytes
ConA-treated, effect of cytochalasin B on DNA synthesis: SUNDQVIST, WANGER & ENGSTRÖM 155

Macrophages
of mouse bone and connective tissue, immunochemistry: HUME, LOUTIT & GORDON 189
MDCK cells
deficient in intercellular communication: SEPÚLVEDA & PEARSON 81
Meiosis
in yeast, mitochondrial nucleoids: MIYAKAWA, AOI, SANDO & KUROIWA 21
Microtubules
central, of *Tetrahymena* cilia, attachment to cap: DENTLER 167
in basal body of *Tetrahymena*: GAVIN 147
in mitosis of CHO cells: KURIYAMA, KERYER & BORISY 265
Microtubule assembly
in *Tetrahymena* cilia: DENTLER 167
Microtubule-organizing centres
in CHO cells: KURIYAMA 277
Microtubule polymerization
in CHO cells: KURIYAMA 277
Mitochondrial nucleoids
fluorescence microscopy of, during meiosis and sporulation in yeast: MIYAKAWA, AOI, SANDO & KUROIWA 21
Mitotic cells
centrosomes in nucleation of microtubules: KURIYAMA 277
Mitotic centre
of CHO cells in taxol-containing medium: KURIYAMA, KERYER & BORISY 265
Mitotic spindle
of CHO cells isolated in taxol-containing medium: KURIYAMA, KERYER & BORISY 265
Monocytes
fusion with osteocytes in culture: ZAMBONIN ZALLONE, TETI & PRIMAVERA 335

Oral mucosa
of hamster, differentiation: WHITE & GOHARI 411
Osteoclasts
in immunochemical study of mouse mononuclear phagocyte system: HUME, LOUTIT & GORDON 189
in primary culture, fusion with monocytes: ZAMBONIN ZALLONE, TETI & PRIMAVERA 335
rabbit, resorption of bone by: CHAMBERS, REVELL, FULLER & ATHANASOU 383

Perophora annectens
apical structure of spermatozoa: FUKUMOTO 175
Phenylmethylsulphonyl fluoride
effects on centrosomes in nucleation of microtubules in CHO cells: KURIYAMA 277
Photoreceptors
of *Lucilia cuprina*, distribution of gap junctions: SHAW 65
Placenta
in culture, syncytioskeletons: OCKLEFORD, DEARDEN & SCHWARTZ 1
Polysphondylium
distribution of sporopollenin in fruiting bodies: MAEDA 297
Primary cell cultures
from human embryonic corneas: HYLDAHL 343

Reproductive potential
of normal mouse embryo fibroblasts in culture: KARATZA & SHALL 401
Retinal
measurements in cats and rabbits for age-related changes: BOYCOTT & HOPKINS 95

Self-incompatibility
response in *Brassica oleracea* pollen–stigma interactions: ROBERTS, HARROD & DICKINSON I, II 241, 255
Shearing force
effect on cell adhesion to substrate: KOWALCZYŃSKA & NOWAK 321
Spermatozoa
of *Perophora annectens*, apical structure: FUKUMOTO 175
Sporopollenin
in fruiting bodies of the cellular slime mould: MAEDA 297
Sporulation
in yeast, mitochondrial nucleoids: MIYAKAWA, AOI, SANDO & KUROIWA 21
Stalk sheath
of cellular slime mould fruiting bodies contains sporopollenin: MAEDA 297

Stereology
in study of differentiation in hamster oral mucosa: WHITE & GOHARI 411
Stigma proteins
in pollen–stigma interactions in *Brassica oleracea*: ROBERTS, HARROD & DICKINSON II 255
Stigmatic papillae
in pollen–stigma interactions in *Brassica*: ROBERTS, HARROD & DICKINSON I 241
Synaptic terminals
in *Lucilia cuprina* axons: SHAW 65

Tetrahymena
cilia, attachment of central microtubules to cap: DENTLER 167
in vitro reassembly of basal body components: GAVIN 147
Trophoblast
syncytioskeletons of choriocarcinoma cells: OCKLEFORD, DEARDEN & BADLEY 1

Vision
in insects, *Lucilia cuprina*: SHAW 65

Yeast
meiosis and sporulation, mitochondrial nucleoids studied by fluorescence microscopy: MIYAKAWA, AOI, SANDO & KUROIWA 21
